TITLE 3—THE PRESIDENT

PROCLAMATION 3018

AID TO KOREA WEEK, 1953

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the civilian population of the Republic of Korea has suffered crushing hardships as a result of the brutal attack launched against that Republic in June 1950; and

WHEREAS private relief agencies have done magnificent work in lessening the privations and afflictions of civilians in Korea, and yet these agencies need still greater support than they have thus far received; and

WHEREAS the Congress, by a joint resolution approved on June 6, 1953, has requested the President of the United States to officially set aside the week beginning June 7, 1953, as a period in which the American people may demonstrate their friendship and affection for the distressed people of the Republic of Korea:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby officially proclaim the week of June 7–14, 1953, as "Aid to Korea Week" and, as a practical demonstration of our friendship and sympathy for the people of the Republic of Korea, I call upon those of our people who have not yet contributed to this cause to make generous contributions to it during that Week, and I urge those who can increase their past contributions to do so, to the end that the private relief agencies may be enabled to help more effectively in the monumental task of rehabilitating the millions of injured, destitute, and homeless Koreans.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this sixth day of June in the year of our Lord nineteen hundred and fifty-three, and of the Independence of the United States of America the one hundred and seventy-seventh.

DWIGHT D. EISENHOWER

JOHN FOSTER DULLES,
Secretary of State.

PROCLAMATION 3019

IMPOSING QUOTAS OR FEES ON IMPORTS OF CERTAIN DAIRY AND OTHER PRODUCTS

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS, pursuant to section 22 of the Agricultural Adjustment Act, as added by section 31 of the act of August 24, 1935, 49 Stat. 773, reenacted by section 1 of the act of June 3, 1937, 50 Stat. 246, and as amended by section 3 of the act of July 3, 1948, 62 Stat. 1248, section 3 of the act of June 28, 1950, 64 Stat. 261, and section 8 (b) of the act of June 16, 1951, Public Law 50, 82d Congress (7 U. S. C. 624), the Secretary of Agriculture advised me that he had reason to believe that upon the expiration of section 104 of the Defense Production Act of 1950, as amended, the products included in the lists appended to and made a part of this proclamation are practically certain to be imported into the United States under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, programs undertaken by the Department of Agriculture with respect to certain of such articles or with respect to products from which certain of such articles are processed, or to reduce substantially the amount of one or more of such articles processed in the United States from agricultural commodities

with respect to which a program of the Department of Agriculture is being undertaken;

WHEREAS, having agreed with the Secretary of Agriculture's reason for such belief; I caused the United States Tariff Commission to make an investigation under the said section 22 with respect to the said articles;

WHEREAS the said Tariff Commission has made such an investigation and has reported to me its findings and recommendations made in connection therewith;

WHEREAS, on the basis of the said investigation and report of the Tariff Commission, I find that in the event section 104 of the Defense Production Act of 1950, as amended, expires under its present terms, the articles included in the lists appended to and made a part of this proclamation are practically certain to be imported into the United States under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, programs or operations undertaken by the Department of Agriculture or agencies operating under its direction, pursuant to sections 101, 201, 301, and 401 of the Agricultural Act of 1949, as amended, and Part VI of Title III of the Agricultural Adjustment Act of 1938, as amended, with respect to certain of such articles or with respect to products from which certain of such articles are processed, or to reduce substantially the amount of certain of such articles processed in the United States from agricultural commodities with respect to which the said programs or operations of the United States Department of Agriculture are being undertaken; and

WHEREAS I find and declare that in the event section 104 of the Defense Production Act of 1950, as amended, expires under its present terms, the imposition of the fees and quantitative limitations hereinafter proclaimed is shown by such investigation of the Tariff Commission to be necessary in order that the entry, or withdrawal from warehouse, for consumption of such articles will not render or tend to render ineffective, or materially interfere with, the said programs or operations, or reduce substantially the amount of products processed in the United States from agricultural commodities with respect to which certain of the said programs or operations are being undertaken:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, acting under and by virtue of the authority vested in me by the said section 22 of the Agricultural Adjustment Act, as amended, do hereby proclaim that on and after July 1, 1953, articles included in the lists appended to and hereby made a part of this proclamation shall be subject to quantitative limitations and fees, as follows:

1. Articles included in Lists I and II (except peanuts) shall be permitted to be entered only by or for the account of a person or firm to whom a license has been issued by or under the authority of the Secretary of Agriculture, and only in accordance with the terms of such license. Such licenses shall be issued under regulations of the Secretary of Agriculture which he determines will, to the fullest extent practicable, result in (1) the equitable distribution of the respective quotas for such articles among importers or users and (2) the allocation of shares of the respective quotas for such articles among supplying countries, based upon the proportion supplied by such countries during previous representative periods, taking due account of any special factors which may have affected or may be affecting the trade in the articles concerned. No licenses shall be issued which will permit any such articles to be entered during any 12-month period beginning July 1 in excess of the respective quantities specified for such articles in Lists I and II and, in the case of articles included in List II, during the first 4 months and the first 8 months of any such 12-month period in excess of one-third and two-thirds, respectively, of such specified quantities.

2. No peanuts included in List II shall be entered during any 12-month period beginning July 1 in excess of the quantity specified for such peanuts in the said List II.

3. Articles included in List III shall, when entered, be subject to the fees respectively specified therefor in the said List III.

I hereby determine that the periods specified in the said report of the Tariff Commission for the purpose of the first proviso to section 22 (b) of the Agricultural Adjustment Act, as amended, are representative periods for such purpose.

The provisions of this proclamation shall not apply to articles imported by or for the account of any department or agency of the Government of the United States.

As used in this proclamation, the word "entered" means "entered, or withdrawn from warehouse, for consumption"

This proclamation shall be without force and effect if section 104 of the Defense Production Act of 1950, as amended, is extended beyond June 30, 1953.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this eighth day of June in the year of our Lord nineteen hundred and [SEAL] fifty-three, and of the Independence of the United States of America the one hundred and seventy-seventh.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 488, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953) regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule making procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

Order as amended. The provisions in paragraph (b) (1) (ii) of § 953.595 (Lemon Regulation 488, 18 F R. 3250) are hereby amended to read as follows:

In the Matter of Anthony Oliverio and Lena Oliverio, Copartners Doing Business as Del Mar Sewing Machine Company

This proceeding was instituted by complaint which charged respondents with the use of unfair and deceptive acts and practices and unfair methods of competition in commerce in violation of the provisions of the Federal Trade Commission Act.

It was disposed of, as announced by the Commission's "Notice" dated April 6, 1953, through the consent settlement procedure provided in Rule V of the Commission's Rules of Practice as follows:

The consent settlement tendered by the parties in this proceeding, a copy of which is served herewith, was accepted by the Commission on April 2, 1953, and ordered entered of record as the Commission's findings as to the facts, conclusion, and order in disposition of this proceeding.

Said order to cease and desist, thus entered of record, following the findings as to the facts[1] and conclusions,[1] reads as follows:

It is ordered, That the respondents, Anthony Oliverio and Lena Oliverio, individually and as copartners doing business as Del Mar Sewing Machine Company, or trading under any other name, and their representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of sewing machine heads or sewing machines in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

prices of their sewing machines when such amounts are in excess of the prices at which their said sewing machines are ordinarily sold in the usual and regular course of business.

4. Representing that certain sewing machines are offered for sale, when such offer is not a bona fide offer to sell the machines so offered.

5. Representing, directly or by implication, that the price at which any of respondents' products are offered for sale is a reduced price, or for a limited time only, or offered only during a clearance sale, when such price is, in fact, the customary price at which said products are regularly offered for sale.

It is further ordered, That the respondents, Anthony Oliverio and Lena Oliverio, copartners doing business as Del Mar Sewing Machine Company, shall within sixty days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

PART 54—GOLD REGULATIONS

FABRICATED GOLD

The text of § 54.25 (b) (2) of the Gold Regulations (31 CFR Part 54; 17 F R. 7888) as hereby amended, is set forth below. This amendment eliminates from provisions relating to the export of fabricated gold from the United States the requirement that the words "fabricated gold" be plainly marked on the outside of the package or container in which such gold is to be exported. There is substituted therefor the requirement that the Bureau of the Census classification number of the fabricated gold article, which is to be exported, be placed upon such package or container.

This amendment is made without notice and public procedure thereon, because such procedures are deemed to be impracticable, unnecessary, and contrary to the public interest.

Accordingly, effective upon publication in the FEDERAL REGISTER, § 54.25 (b) (2) of the Gold Regulations (31 CFR Part 54) is amended to read as follows:

§ 54.25 *Licenses.* * * *

(b) *Licenses and authorizations for exporting gold.* * * * (2) *Fabricated gold.* Fabricated gold as defined in § 54.4 may be exported or transported from the continental United States without the necessity of obtaining a Treasury gold license: *Provided, however,* That the Bureau of the Census Schedule B statistical classification number of each specific commodity to be exported shall be plainly marked on the outside of the package or container, the shipper's export declaration shall contain a statement that such gold is fabricated gold as defined in § 54.4 and is being exported pursuant to the authorization contained in this subparagraph, and such additional documentation shall be furnished as may be required by the Bureau of Customs or any other government agency charged with the enforcement of laws relating to the exportation of merchandise from the United States.

TITLE 32—NATIONAL DEFENSE

Chapter XIV—The Renegotiation Board

Subchapter B—Renegotiation Board Regulations Under the 1951 Act

PART 1457—FISCAL YEAR BASIS FOR RENEGOTIATION AND EXCEPTIONS

TREATMENT OF CONTRACTS WITH PRICE ADJUSTMENT PROVISIONS

This part is amended by deleting § 1457.5 in its entirety and inserting in lieu thereof the following:

§ 1457.5 *Treatment of contracts with price adjustment provisions—(a) Renegotiation status of such contracts.* Certain contracts contain incentive provisions or provide for escalation, redetermination or other revision of the contract price during or after the completion of performance of the contract. Such contracts are subject to renegotiation unless otherwise exempted.

(b) *Allocation of price revision to fiscal year or years affected thereby—(1) Price revision allocable solely to fiscal year under review.* If the price adjustment provisions of a contract apply to the receipts or accruals of the contractor solely in the year under review, the amount of such price revision will be deemed allocable wholly to the fiscal year under review.

(2) *Price revision allocable to more than one fiscal year* If the price adjustment provisions of a contract apply to

the receipts or accruals of the contractor in more than one fiscal year, and if no special agreement shall have been made with the contractor for any other method of allocation, the amount of such price revision will be allocated to each such fiscal year as follows:

(i) If the contract provides a method for such allocation, the allocation will be made in accordance therewith.

(ii) If the contract does not provide any method for such allocation, the allocation will be made in such manner as the Board shall determine to be fair and equitable.

(c) *When price revision precedes renegotiation.* When, pursuant to the price adjustment provisions of a contract applicable in whole or in part to the fiscal year under review, the price payable by the Government to the contractor under such contract is decreased before the completion of renegotiation of the contractor for such fiscal year, the amount of such price decrease allocable to the fiscal year under review will be treated as a reduction of the renegotiable income of the contractor for such fiscal year, in accordance with the provisions of section 3806 of the Internal Revenue Code. When, pursuant to the price adjustment provisions of a contract applicable in whole or in part to the fiscal year under review, the price payable by the Government to the contractor under such contract is increased before the completion of renegotiation of the contractor for such fiscal year, the amount of such price increase will, notwithstanding the provisions of §§ 1459.1 (b) (1) and 1456.3 (b) (2) and (3) of this subchapter, be included in the renegotiable income of the contractor for the fiscal year under review in order properly to reflect the renegotiable income and profits of the contractor for such fiscal year.

(d) *Special treatment required when renegotiation precedes price revision—* (1) *Refund cases.* (i) If it is anticipated, pursuant to the price adjustment provisions of a contract applicable in whole or in part to the fiscal year under review, that the price payable under such contract will be retroactively increased or decreased after the completion of renegotiation for such fiscal year, the amount of such anticipated price revision will be estimated and adjustment will be made as hereinafter provided for any portion thereof which is determined to be allocable to the fiscal year under review pursuant to the provisions of paragraph (b) of this section.

(ii) In any case in which an agreement is made for the elimination of excessive profits, if a retroactive downward price revision is anticipated, the contractor will be permitted to set up a reserve to cover the refund of the portion of the estimated price revision which is allocable to the fiscal year under review and to charge the amount of such reserve against renegotiable business for such fiscal year: *Provided,* That, if the amount of such reserve is substantial, there will be included in the renegotiation agreement a clause providing that, in the event the final downward price revision is less than the amount of such reserve, the difference between the amount of such final price revision and the amount of such reserve shall be deemed to be additional profits for the fiscal year under review to be eliminated pursuant to the act.

(iii) In any case in which an agreement is made for the elimination of excessive profits, if a retroactive upward price revision is anticipated and the estimated amount thereof is substantial, there will be included in the renegotiation agreement a clause providing that any amounts thereafter received or accrued by the contractor as a result of such price revision shall be deemed to be additional profits for the fiscal year under review to be eliminated pursuant to the act.

(iv) Whenever more than one price revision allocable in whole or in part to the fiscal year under review is pending at the time renegotiation is completed for such fiscal year, with downward price revision anticipated under some contracts and upward price revision anticipated under other contracts, the provisions of subdivisions (ii) and (iii) of this subparagraph will be applied to the aggregate net downward or upward revision so estimated.

(v) Section 105 (a) of the act provides, in part, that an agreement may include provisions with respect to the elimination of excessive profits likely to be received or accrued. No similar provision is contained in the act for the elimination by order of excessive profits likely to be received or accrued. Accordingly, in refund cases not concluded by agreement, it is not practicable to make provision for anticipated price revisions as prescribed in subdivisions (ii) and (iii) of this subparagraph. In such cases the Board will inform the procurement agency of the status of the renegotiation and will request its cooperation in effecting prompt completion of any pending price revisions allocable in whole or in part to the fiscal year under review. If necessary, in the most exceptional cases, at the request of the contractor and the procurement agency, when excessive profits are determined by order, the Board will also determine the portion thereof, if any, attributable to contracts providing for price revisions not yet completed. Notwithstanding any other provisions of this section, when an order is issued before the completion of any price revision allocable in whole or in part to the fiscal year under review, the Board may elect to allocate the amount of such price revision not to the fiscal year under review but to the fiscal year in which such price revision is completed.

(2) *Other cases.* If, for the fiscal year under review, the contractor sustains an over-all loss or realizes an amount of profits which is not determined to be excessive, so that the case is either withheld from assignment or, if assigned, is concluded by the issuance of a clearance (see §§ 1471.1 and 1473.1 of this subchapter), and if at such time the receipts or accruals of the contractor for the fiscal year under review are subject to adjustment pursuant to contract price adjustment provisions applicable in whole or in part to such fiscal year, the following rules will apply: If an upward price revision is reasonably anticipated in an amount sufficiently substantial to affect the result of renegotiation for the fiscal year under review, or if the reserve allowed to the contractor for an anticipated downward price revision is sufficiently substantial in amount to affect the result of renegotiation for the fiscal year under review, a determination will be made by the Board or Regional Board of the amount of additional profits which the contractor may thereby realize without incurring any liability for excessive profits for such year. This will be done only when it is considered that by the operation of such contract price adjustment provisions the contractor may realize additional profits in an amount sufficient to bring its total renegotiable profits for the fiscal year under review above the clearance level so determined. Any such case will not be withheld from assignment or closed by a notice of clearance, but will be assigned and closed by a clearance agreement containing a clause in the form set forth in § 1498.2 (g) (2) or (4) as the case may be, of this subchapter.

(3) *Different treatment in special cases.* Notwithstanding any other provisions of this section, if the price adjustment provisions of a contract apply to the receipts or accruals of the contractor in more than one fiscal year, including the fiscal year under review, the contractor and the Board or Regional Board conducting the renegotiation may enter into a special accounting or other agreement providing for the effects of the operation of such price adjustment provisions in a manner different from that prescribed in this section.

(4) *Forms of clauses for agreement.* Forms of clauses which may be used in a renegotiation agreement to give effect to the principles stated in this paragraph are set forth in § 1498.2 (g) of this subchapter. These clauses contemplate the existence of several pending price revisions, with downward price adjustment anticipated in some and upward price adjustment anticipated in others, and provide for disposition of the aggregate net downward or upward adjustment. The clauses should be appropriately modified when only a single price revision is outstanding at the time of the renegotiation agreement, or when, although several price revisions are outstanding, it is anticipated that all will be downward or all will be upward. In any case in which the contract price adjustment provisions apply to the receipts or accruals of the contractor in more than one fiscal year, including the fiscal year under review, such clause should be modified to limit the application of such clause to that portion of the amount of such price revision which is determined to be allocable to the fiscal year under review pursuant to the provisions of paragraph (b) of this section.

IDABEL COMMISSION COMPANY

DEPOSTING OF STOCKYARD

It has been ascertained that the Idabel Commission Company, Idabel, Oklahoma, originally posted on April 27, 1950, as being subject to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under that act for the reason that it no longer meets the area requirements. Accordingly, notice is given to the owner thereof and to the public that such livestock market is no longer subject to the provisions of the act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not deposting promptly a livestock market which no longer meets the area requirements of the act and is, therefore, no longer a stockyard within the definition contained in the act.

The foregoing is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after its publication in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.
